

TEACHER CERTIFICATION PROGRAM FOR COLLEGE GRADUATES

EARTH SCIENCE EDUCATION REQUIREMENTS

Neag School of Education's Teacher Certification Program for College Graduates (TCPCG) in Earth Science Education is designed to prepare college graduates for certification as teachers of earth science (grades 7-12). College graduates who have completed or anticipate completing an accredited bachelor's degree program at this or another college or university may apply for admission to the TCPCG when their academic background includes completion of the following general education and subject area major requirements. Applicants must also apply to and be accepted by the Graduate School of the University of Connecticut to pursue a Master of Arts degree in Curriculum and Instruction. To earn the University of Connecticut's institutional recommendation to serve as a teacher, students must successfully complete the requirements for the Master of Arts degree in Curriculum and Instruction and Connecticut's subject knowledge testing requirements.

Plan of Study Requirements for Secondary Earth Science Certification:

1. A bachelor's degree from a regionally accredited institution.

2. GENERAL EDUCATION REQUIREMENTS:

General academic courses: Applicants must have 39 semester hours of coursework that meets five of six of the following areas: (1) English; (2) Natural Sciences; (3) Mathematics; (4) Social Studies; (5) Foreign Language; or (6) Fine Arts. Applicants must have a three semester hour U.S. History survey course.

3. SUBJECT AREA MAJOR REQUIREMENTS:

Complete a SUBJECT AREA MAJOR consisting of a minimum of thirty-six (36) credits in natural science. This includes a minimum of twenty-four (24) credits in the earth sciences and closely related subjects (astronomy, geology, meteorology, oceanography, physical geography). Up to twelve (12) credits may be completed in related areas.

Students wishing to specialize in the earth sciences are advised initially to major in geology or physical geography and in addition, to select appropriate courses in meteorology, astronomy, and oceanography.
